1 ounce (28 grams) Glucosamine HCL (Vegetarian) from TSI.

2-3 Days

Description

[GlucosaGreen®](#)

Superior Quality. TSI Reliability. Non-Shellfish Glucosamine.

Our GRAS-affirmed, non-shellfish and non-GMO Glucosagreen® glucosamine line is non-animal derived as it is manufactured with carefully selected vegetal raw materials and process aids.

With efficacy and bioavailability are equal to that of shellfish glucosamine, GlucosaGreen® is an excellent candidate for use in:

- Vegan and Vegetarian joint health foods and supplements
- Color sensitive powders and beverages
- Tablets and encapsulations

Our complete range of GlucosaGreen® glucosamine ingredients can be used in **any current glucosamine formulation** without any formula and process changes.
