The ratio is 1:1 of each ingredient (42.50 grams) except Acacia (100 grams per 1/2 pound).

Each level teaspoon is approximately 3 grams with 75 servings per 1/2 pound.

A suggestion on dosage of Glyconutrients* for the health challenged: Savoring 1/2 to 1 teaspoon orally for 3 minutes, 3 or more times a day may be beneficial for those facing certain health challenges. As well, alternating with a higher dose may be beneficial. I.E., a couple of times a week, take the maximum dose we recommend (6 to 9 teaspoons per day), then take a couple days off after a large dose.
